The Project Management Course

Plus Optional Standalone Workshop: Using Microsoft Project®

Study practical and effective management techniques for the successful execution of any project.

Course + Workshop

August 13 - 15, 2018 +
August 16 - 17, 2018

Feb. 25 - 27, 2019 +
Feb. 28 - Mar. 1, 2019

Our Participants Say it Best:

"This was a great overview of project management. I'm confident that with the skills I've learned in this course my next project will be a success."

C. Bartello,
Planogram Analyst,
LCBO

"Incredible amount of knowledge was impacted in the most effective and efficient teaching manner!"

G. Matthew,
Manager,
WSIB

"The course offered valuable information to develop a meaningful, practical, clear and successful project. Careful attention was given to delivering on time, in budget, as per the scope defined."

F. Bagley, Co-ordinating Superintendent,
Director's Office,
York Catholic District School Board

SEEC Moments of Insight include:

Ideal for every project leader, manager or supervisor who is responsible for executing new organizational initiatives.

The Project Management Course

Over 2500 participants from all sectors and disciplines have attended!

Plan, execute, monitor, control, and close all types of projects – on time and on budget.

A project is a unique undertaking that creates a desired result. It contributes to one or more organizational objectives while achieving both project and product objectives. The five project management process groups, (Initiating, Planning, Executing, Monitoring and Controlling, and Closing) provide a comprehensive and practical view of an entire project from beginning to end.

The course provides a **solid grounding in project management processes while recognizing the often neglected human side of project management.** This is an ideal overview for anyone who is looking for a **practical approach to managing projects.** Participants love the step by step approach, and the numerous techniques and templates that are included.

Top Take-Aways

1. Learn essential PM terminology that will enable you to communicate effectively with your peers.
2. Understand the project life cycle
3. Break the work down into more manageable components.
4. Manage the key constraints of time, cost, and scope
5. Identify and analyze project risks
6. Perform a stakeholder scan and understand key stakeholder roles and responsibilities
7. Establish and use the proper communication channels
8. Learn what key information to collect for status and progress meetings
9. How to closeout your project, gather lessons learned and implement best practices on future projects.

Who Should Attend

This course and workshop is vital for people involved in project work within public, private, and non-profit sectors, including but not restricted to:

- New managers and project managers
- Those undertaking unique projects
- Corporate department heads
- Senior executives with business planning responsibilities
- Systems, manufacturing and operations personnel
- Engineering professionals
- Technology and research managers

Using Microsoft Project® Workshop

Featuring
Microsoft
Project 2016,
Standard Version
(MS Project 2013
and 2010 also
welcome)

Learn the software tools to support all your everyday project management activities.

Your projects just got a lot easier to manage thanks to our Microsoft Project software training workshop. This workshop format is **ideal for managers and staff who are looking to improve their skills in using project management software.** You will be led through practical exercises which illustrate the many software features. The workshop covers tangible management issues including:

- Setting up a project
- Scheduling and assigning tasks
- Allocating costs and resources
- Tracking progress
- Generation of critical paths
- Manpower planning
- Resource over allocations
- Consolidating multiple projects

Don't miss this interactive workshop – you will wonder why you didn't learn these project planning techniques and software skills earlier!

- Factors affecting resource management
- Defining resources types and creating a resource list (people and equipment)
- Defining costs: fixed, variable and material

Managing Consolidated Projects

- Sharing a resource pool among multiple projects
- Creating a master project file
- Viewing resource assignments across multiple projects

Tracking Progress and Producing Reports

- Setting baselines for projects or tasks
- Updating projects tasks and project status
- Viewing reports and customized tables

Learning shouldn't stop at the end of your formal education in high school or university.

Because few of us have the same job for life, we constantly have to re-invent ourselves, learn new skills and adapt to the changing marketplace and business environment. Today's professionals and executives must be able to quickly develop and fine-tune personal business skills to adapt and grow.

The Schulich Executive Education Centre is a strategic business unit of the Schulich School of Business at York University in Toronto. Our role within the school is to provide lifelong learning for the development of professionals and executives long after their full-time education has been completed and they are in the work force.

All SEEC Programs Feature:

Just-in-Time Learning for Immediate Application

Executive and Professional Development at Schulich is focused, practical and immediately applicable to the skills you need and the task at hand. Select from a wide variety of relevant management topics at SEEC today, and use the new skills and techniques you learn at the office tomorrow.

Advanced Curriculum Structure

Our programs combine a variety of modalities to ensure optimal program effectiveness, relevance and retention for adult learners. They include mini-cases, break-out sessions, simulations, role playing and other interactive events to reinforce the concepts being taught.

Outstanding Faculty

Our accomplished faculty is drawn exclusively from both practitioners and academia, and each is an acknowledged leader and innovator in their field. Their professional activities, research and work experience allow them to bring a wealth of insight and cutting-edge knowledge to the program.

Risk Free Learning

SEEC Open Enrolment programs come backed with a 100% satisfaction guarantee.

A Lasting Memento

Participants receive a handsomely framed Certificate of Course Completion.
