+ supplemental follow-up session on Sep. 25, 2020

The PMP® Exam Preparation Course: Project Management Professional®

Accelerate your project management career – make the move to become a Project Management Professional (PMP®).

This prep course will substantially reduce the time required to prepare to write your PMP exam, with emphasis on what you need to know to pass the exam.

Convenient 5-day format! • This SEEC program features the following:

Includes a comprehensive classroom lesson plan and study guide that covers every learning area required for success on the exam.

Benefit from a professional instructor with a 25 year background plus thousands of hours of classroom training experience.

Learn PM language, best practices, tools and techniques, and loads of hints and tips to assist you in writing your PMP exam.

Online Format Features

- 10:00 am - 3:30 pm daily, with lunch and short breaks throughout the day (follow-up session 10:00 am - 12:30 pm).
- The program has been completely re-structured for on-line learning purposes. Popular activities and aids, as well as section tests, will remain as part of the curriculum.
- The virtual class will include both instructor led sessions, as well as pre-recorded videos that attendees will view at appropriate times, as recommended by the facilitator.
- Individual and group exercises will supplement the learning, and tests will be administered for each relevant section to ensure concepts are understood.
- Limited homework assignments will be part of the learning process, with on-line session hours reduced accordingly to accommodate participants' busy schedules.

Receive the 35 contact hours required to write the PMP exam.

Executive Education Centre

Build your confidence and test-taking skills to successfully write your PMP exam.

In today's fast-paced world of project management, **work experience alone is only half the equation for career success.** There is an ever-increasing demand from organizations for project leaders and staff who have **obtained the Project Management Institute's® Project Management Professional (PMP) designation.**

The PMP certification illustrates that you have **world-class standardized project management knowledge**, and have committed yourself to mastering all of the essential PM skills. **It puts you at the top of your industry**, and will open many new avenues of career growth.

What You Will Learn

- 1. Learn from one of the most respected project managers in Canada:** Sandra Martyn, PMP, is a university-level facilitator with thousands of hours of classroom training experience. She has taught project managers from all over the world, plus has spent 25 years "in the trenches."
- 2. All ten knowledge areas and five process groups:** All ten knowledge areas and five process groups will be reviewed in detail.
- 3. Review scores of sample questions:** Learn first hand how to interpret exam questions, and focus your study time on topics that need the most attention.
- 4. Receive test-taking tips:** Maximize your exam-writing efficiency.
- 5. Network and learn in study teams:** A top-rated feature of our program.

Who Should Attend

- Experienced project managers and analysts who want to improve their test-taking skills and confidence prior to writing the PMP exam
- Any individual who would simply like to increase their understanding of project management, even if you are not writing the exam

Instructor Profile

Sandra Martyn, PMP

Sandra is President of The Martyn Group, a global project management consulting and training organization. She has more than 25 years experience successfully managing the rollout of numerous large and complex projects across North America, and has managed projects in all categories, including construction, information technology, automotive production, financial, transportation, and many others.
