Gain the essential management competencies in a time frame that works for you.

Finally, there is a program that delivers current MBA subjects in a practical time frame for busy physicians. Schulich ExecEd has pioneered a concise Mini-MBA: Physician Business Leadership Program to provide you with current, robust business competencies directly applicable to your practice.

The Schulich Mini-MBA: Physician Business Leadership Program is designed as a technology-enhanced program, allowing for highly interactive classroom experiences that are supplemented with online materials and pre-session readings with which you engage at your own pace. Participants will gain knowledge and insights in a range of MBA subjects – including strategic management, marketing, finance and human resources – preparing them to become more effective managers in their organizations and beyond.

Here’s what makes this program ideal for any busy physician who is looking to update their competencies:

1. **Relevant, state-of-the-art MBA subjects:** Develop integrated management competencies through classes in marketing, finance, strategic management, human resources and other key MBA subject areas.

2. **Convenient virtual classroom sessions:** Attend one online 2-day module over 19 days of the program. Between modules, engage with videos and online readings at your own pace.

3. **World-class faculty:** Interact and learn from top-rated instructors from Schulich’s MBA and EMBA programs, consistently ranked among the world’s best.

4. **Instant application to our Integrated Strategy Case Project:** Apply and synthesize your newly acquired skills to a challenging Integrated Strategy Case Project that is modeled after the renowned Schulich Strategy Field Study and get feedback from professional experts.

5. **Networking opportunities with highly experienced leaders and physicians:** Connect with and learn from your peers.

This program is an eye-opener for me. It provides me with the knowledge and the tools that I am sure will help me in my creative professional activities and leadership roles.

Dr. Santhosh Thyagu
Hematologist, Lead Acute Oncology Program
Princess Margaret Cancer Centre

Thank you for providing such an incredible program to help us launch the next phase of our careers – this is just the beginning!!

Dr. Leonie Herx
Past President of the Canadian Society of Palliative Care Physicians, Associate Professor and Division Head of Palliative Medicine at Queen's University, and the Medical Director for Palliative Care at Kingston Health Sciences Centre and Providence Care Hospital

Relevant and thought provoking sessions.

Dr. Erum Raheel
Medical Director, Oasis Family Health Centre
Examine the roles played by hospitals, governments, regional authorities, as well as their decision making and accountability structures. The program also examines costs and financing; stakeholders; consolidation and clinical integration; challenges and threats.

- The program illustrates strategic management concepts in various management and multi-disciplinary settings, changing technologies and methods of health delivery.

**DAY 3: Entrepreneurship and Innovation in Healthcare**

Explore the entrepreneurial landscape in healthcare (e.g., long-term care and nursing homes), the role of disruptive technologies, innovation, new business models, leveraging public-private partnerships, understanding complex regulatory requirements, and the need for human capital.

- This program explores value creation through the art and science of business planning to drive investment, innovation and transformation in healthcare.

**DAY 4: Leading Healthcare Transformation**

Set the context of transforming yourself and the organization for changes in healthcare. Understand your own talent and leadership makeup through the LeaderGENE assessment.

- With a focus on self-awareness and natural style tendencies, participants will be taken through a debrief of their results, leadership norms will be shared, as well as ideas for how to leverage and shift style to meet the needs of your practice.

**DAY 5: Managing Difficult Conversations in Healthcare**

How do you effectively manage a difficult conversation in healthcare? Whether it’s talking with colleagues, suppliers, stakeholders or patients, being able to handle tough conversations is vital to your success as a physician.

- In this workshop, we will examine some of the real-world challenges you will face and tips to prepare for and overcome them.
Examine the roles played by hospitals, governments, regional authorities, as well as their decision-making and accountability structures. The program also examines costs and financing; stakeholders; consolidation and clinical integration; challenges and threats.

The program illustrates strategic management concepts in various management and multi-disciplinary settings, changing technologies and methods of health delivery.

Day 6: Strategic Management II

Day 8: Emerging Digital Technologies and Their Impact on Healthcare

Link the execution of business strategy to innovation and new technology in healthcare.

- Understand how digital technologies can disrupt the healthcare industry
- Identify and analyze key emerging technologies and their potential application to the health system
- Consider the implications of digital transformation on your patients, practice and workforce

Day 8: Emerging Digital Technologies and Their Impact on Healthcare

Day 9 & 10: Managerial Finance in Healthcare

This session provides an opportunity to learn about investment and financing.

- The investment decision allocates scarce resources to projects in the organization and involves asset valuation, capital budgeting, risk management, working capital management and performance assessment.
- Ethical considerations and management in the global context are integrated into these topics.

Few skills are as important to physician leaders as the ability to negotiate, persuade and influence others. In this session, we examine evidence-based approaches to building agreement between parties.

The session will introduce how to best prepare for a negotiation, how to identify whether potential agreements are good or bad, and how to be most persuasive when presenting offers.

We will also discuss how to ask questions that lead to open and honest responses from a negotiation counterpart.
Program Content

DAYS 11 & 12: Marketing & Brand Strategy

Explore leading empirical evidence and practices today for conceiving and executing a marketing strategy and building strong brands and businesses.

- Describe how behavioral economics and neuroscience inform our knowledge of how to positively impact consumer buyer behaviour today
- Conceive and execute a powerful marketing strategy to grow your brand and business

DAYS 13 & 14: Building and Running a Successful Practice

- Focus on building skills to better work with formal and informal systems, practices, relationships and cultures so that you can identify impacts, influence decisions and achieve organizational objectives.
- Develop skills to better predict the way new events and emerging issues will affect their organization, the public and stakeholders.

DAYS 15 & 16: Essentials of Human Resources Management

Gain an understanding of the core elements of Human Resource Management and the ways in which HR practices can substantially contribute to an organization’s performance and objectives.

DAYS 17 & 18: Leading Change/Creating the Buy-in

Uncover the nature of change and how to manage resistance to strategic change.

- Develop your capacity to foster & lead sustainable change.
- Examine the challenge and nature of change and uncover why 80% of change initiatives fail.

DAY 19: Presentations and Graduation

Deliver an Integrated Strategy Case Project presentation featuring guest adjudicators, plus graduation and closing ceremonies.
